

## Cover Crimper (CC1) User's Guide

---

Thank you for purchasing the Cover Crimper (CC1). Please read and follow the instructions in this User's Guide to get the best results from the Cover Crimper (CC1).

### What you need:

- A stable surface suitable to support the unit
- The unit weighs approximately 8 pounds
- The Cover Crimper (CC1) unit

### Setting Up and using the Cover Crimper (CC1):

1. Place the Cover Crimper (CC1) unit on a stable surface at the appropriate height for your operator.
2. Pull the handle of the Cover Crimper (CC1) unit toward you to open the crimping unit.
3. Place the book (with cover attached) into the crimping unit.
4. Release the handle to apply pressure for 30 seconds.
5. The book is now ready to have the final pressure seal applied.

---

**Important:** We encourage each customer to build test books and get comfortable and satisfied with your output before proceeding with live production runs.
